

Spring Tea Party & Renaming Ceremony 新春茶聚及學系重新命名典禮

A Spring Tea Party was held on 12 March 2015 by Department of Supply Chain Management. During the tea party, we announced the renaming of our department as **Department of Supply Chain and Information Management**, which will be effective in the academic year of 2015/16 so as to capture the essence of the increasingly diversified and the fast developed multi-disciplines of Department. In addition, SCM colleagues took this opportunity to show our deepest gratitude to colleagues from different units for their full support to our Department, leading to the successful inclusion of our BBA-SCM Programme by the HKSAR Government Education Bureau's Study Subsidy Scheme for Designated Professions/Sectors (SSSDP) as well as successful preparation and execution of BBA-SCM Programme re-validation exercise.
